Now Taking Call Ahead to go orders

*S*ocial dining is a meeting either at someone's place

or restaurant to enjoy a meal together. It is a philosophy of using meals specifically as a means to connect with others. Eat to socialize.

Social dining differs from a dining club in the sense that it is not exclusive, but promotes an inclusive atmosphere. Friends and strangers alike can share the social dining experience.

Social dining dates back to the ancient Greeks when meals would be prepared for the purpose of gathering together during festivals or commemorations.
